Aura Air

The smartest air management solution for enterprises

As proven by:

INNOVATIVE BIOANALYSIS · EPA · MINISTERIO DE DEFENSA

Hundreds of satisfied businesses

GREYHOUND · Coca-Cola · Hilton · MERIDEN PUBLIC SCHOOLS · PRESTIGE HEALTHCARE

Claiming our right to clean air

With a quest to live healthier, Aura developed the **world's leading air management system,** one that disinfects your indoor air while vigilantly monitoring its quality in real-time.

When hazards are detected, **Aura notifies you immediately,** providing crucial information regarding the nature of the problem, solutions for fixing it, and alerts you for immediate evacuation if necessary.

While keeping you informed about your indoor environment, Aura also monitors outdoor air quality and provides you with a **holistic picture of today and tomorrow.**

Why Aura Air?

✔ Safety

Take immediate action with our real-time smoke, gas leak, and vaping alerts, to protect your facilities.

✔ Sustainability

Energy savings through HVAC optimization and BMS integration

✔ Health & Wellness

Reduce sick days by medical grade filtration and disinfection

✔ Boost Your ESG Strategy

Take advantage of a single system to enhance all your environmental, social, and governance factors.

Aura Air

A risk mitigation platform to manage health, wellness, and sustainability in schools

INNOVATIVE BIOANALYSIS   EPA

Protecting students and staff:

Clean Air
for peace of mind

Educators face a unique challenge in maintaining healthy air quality in their classrooms. With indoor air being five times more polluted than outdoor air, harmful particles can severely impact academic performance and pose a significant health and comfort concern.

With this in mind, Aura Air developed a unique air quality solution that both purifies your indoor air while vigilantly monitoring its quality in real-time.

Validated by Science

Innovative Bioanalysis Labs in California found that Aura Air purifiers kill 99.99% of viruses, bacteria, and allergens, including RSV, SARS-CoV-2, and Influenza A, the primary cause of seasonal flu.

Health & Wellness
