

Self-Questioning Guide

Directions: Before reading, write down a question you think will be answered in that section. After you're finished reading a section, try and answer your question.

If you can't answer it, reread your passage, check for vocabulary you don't know, look again at graphs, diagrams, or pictures in the section, and finally write your question down for the teacher to answer.

Heading: Your question:	After finishing, can you answer your question? YES NO
