

FAQ Release 2022-06-30

District Charter School Technical Assistance Pool

RFQ #2021-09-03

- Q1: It says the proposal needs to be limited to two pages. I am assuming the Certificate of Notice of Eligibility, like the title page, is not included in that two-page limitation. Is that correct?**
- A. Yes.
- Q2: I am assuming I will be embedding the artifacts via a digital link for each. Is that correct?**
- A. Yes, all artifacts can be embedded into the proposal using digital links.
- Q3: This bullet says, "Describe the Vendor's ability to develop and maintain high-quality guidance resources". By guidance resources, are you referring to resources my organization creates to support educators, for example a document on how to break down the TEKS in order to understand your curriculum? Could you give me some examples of what is meant by a guidance resource? I don't want to assume.**
- A. Yes, by high-quality guidance resources we are referring to your organization's ability to support district charter operators either in the areas of academic performance, community engagement, district-charter engagement, governance, finance, and talent pipelines to ensure charter operators can implement sustainable, successful, and potentially replicable models. Yes, if a district charter operator needs assistance on how to break down the TEKS, then you could assist them with the coaching and support they would need to be successful with this process.
- Q4: It says "Please link or indicate 3-5 relevant artifacts after each section." We are applying as an Academic Support provider. Do you mean to provide 3-5 artifacts pertaining to each bullet point?**
- A. Yes, please provide 3-5 artifacts pertaining to the academic support you will be providing.
